(Women's Health and Aging Study, baseline interview, 1992-1994)

¹ All variables have less than 1% missing data. Results are based on non-missing data.

² Percents and means are based on weighted data.

³ No ADL difficulty; disabled in two or more domains (see Chapter 1).

⁴ By yourself, that is without help from another person or special equipment, do you have any difficulty walking up 10 steps without resting? How much difficulty do you have?

⁵ 100(r/R), where r=number of rooms no longer using (How many?) and R=number of rooms (How many rooms do you have in your (house/apartment)?)
